Retraction

Retracted: Rhinosporidiosis of the Parotid Duct

The paper entitled "Rhinosporidiosis of the Parotid Duct" [1], published in Case Reports in Dentistry, has been retracted as it was submitted without the knowledge or consent of Dr. Premalatha Shetty who was responsible for the patient whose case was presented in the manuscript. Also, the manuscript includes false data, as the presented case was originally reported and treated in a hospital at Mangalore, India, in 2009 and not in Nepal.
