The authors would like to indicate that there has been an inadvertent error in “Stevioside from Stevia rebaudiana Bertoni Increases Insulin Sensitivity in 3T3-L1 Adipocytes” [1]. The Western blot image of Figure 6 that was uploaded for the β-actin protein bands is incorrect. The corrected image of the β-actin protein for Figure 6 is hereby attached. This error does not alter or affect the discussions and conclusions that have been reached in this paper.

Also in Figure 6, the pIRS1 bands were rearranged to match the pY20 group, because the blots were run in a different order.
