

Evidence-Based Complementary and Alternative
Medicine

Special Issue on
**New Exploration of Chinese Herbal Medicines in
Hepatology**

CALL FOR PAPERS

This special issue aims to provide a platform for researchers to present recent findings and developments on herbal medicine in basic and clinical research of hepatology. As complementary and alternative treatment of liver diseases (acute and chronic hepatitis, alcoholic steatosis, fibrosis, cirrhosis and hepatocellular carcinoma, etc.), Chinese herbal medicines have been extensively studied worldwide. You are cordially invited to submit your original research or review articles for possible inclusion in this journal's special issue.

Potential topics include, but are not limited to:

- ▶ Basic studies of herbal medicines in the prevention and treatment of liver diseases
- ▶ Liver injury induced by herbal medicines and herb-drug interaction
- ▶ Translational research on liver disease modeling and clinical studies of herbal medicines in the prevention and treatment of liver diseases
- ▶ Systematic reviews on herbal medicines and liver diseases or liver injury

Authors can submit their manuscripts via the Manuscript Tracking System at <http://mts.hindawi.com/submit/journals/ecam/nehm/>.
