This erratum corrects a citation for a related work that used some of the same data. Citation 56 should be included in the References section. After the second sentence of the second paragraph of the Discussion section, a sentence should appear: “Patterns reflect those presented previously [28, 56].” The third sentence of the third paragraph of the Discussion section should include the citation so that it reads “. . .or because travel costs associated with food gathering are too great [56].” The fourth sentence of the fifth paragraph of the Discussion section should include the citation so that it reads “. . .a second population could be established [28, 56].”

The references were as follows.
