

Nickel Nanoparticles for Enhancing Carbon Capture

Gaurav Ashok Bhaduri*, Mohammed A.H. Alamiry and Lidija Šiller*

School of Chemical Engineering and Advanced Materials, Newcastle University, Newcastle upon Tyne, NE1 7RU

Supplementary Information

Curve fitting of CO₂ absorption in 50% potassium carbonate solution in presence and absence of NiNPs.

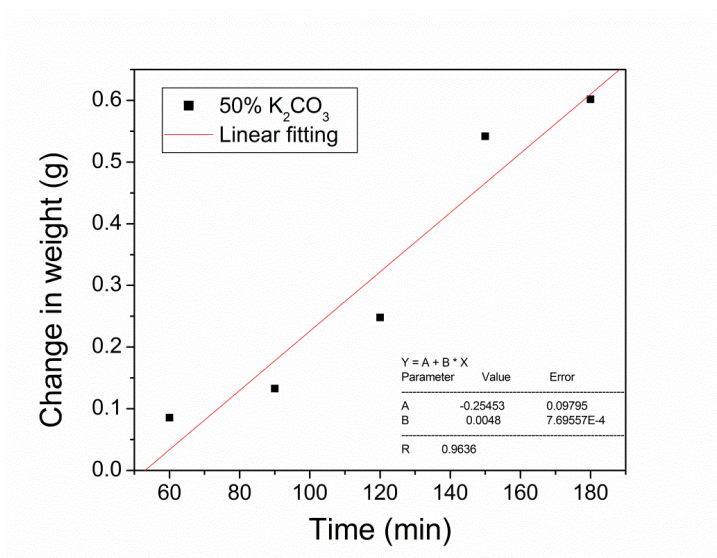

Figure S1: CO₂ absorption in 50% potassium carbonate solution using liner fit.

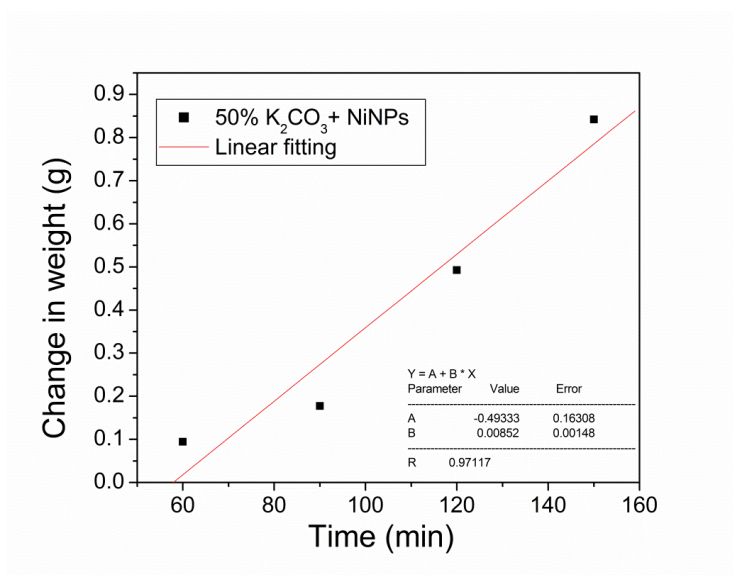

Figure S2: CO₂ absorption in 50% potassium carbonate solution in presence of NiNPs using liner fit.
