There is a factual error in the figure legend of Figure 11 which reads, “nucleated (N) columnar epithelial cells of the midgut with microvilli (Mv) extending into the lumen (endoperitrophic space) of the gut. A regenerative cell (arrow) lies between two columnar epithelial cells beneath layers of circular (CM) and longitudinal (LM) muscle. Scale bar = 30 μm .”

The inclusion of, “(endoperitrophic space)”, as it appears in the published version is not correct.

Figure 11 legend should read, “nucleated (N) columnar epithelial cells of the midgut with microvilli (Mv) extending into the lumen of the gut. A regenerative cell (arrow) lies between two columnar epithelial cells beneath layers of circular (CM) and longitudinal (LM) muscle. Scale bar = 30 μm .”

The authors apologize for this error and any inconvenience that it may have caused.
