It has come to our attention that there is an inaccuracy requiring clarification with respect to two important references cited throughout our paper. First, in the PDF version of the paper in paragraph 2.1 in line 27 (after the word “ErbB family”) and in the fourth last line (before the word “Figure 2”), reference [42] is missing. Secondly, on page 4 in the last paragraph and on page 13 in the second paragraph, the corresponding text should have been cited as reference [177] instead of reference [42] in both cases. Unfortunately, these mishaps make it impossible to tract the scientific contribution of others to the paper. We apologize to the authors of these articles and the readership of the journal for these shortcomings.
