In the article titled “Unloading Creep Characteristics of Frozen Clay Subjected to Long-Term High-Pressure K_0 Consolidation before Freezing” [1], there were two clerical errors in both affiliation names, where the word “Science” was redundant, as follows:

- (1) State Key Laboratory for Geomechanics and Deep Underground Engineering, China University of Mining Science and Technology, Xuzhou 221116, China
- (2) School of Mechanics and Civil Engineering, China University of Mining Science and Technology, Xuzhou 221116, China

The correct affiliation titles are as follows:

- (1) State Key Laboratory for Geomechanics and Deep Underground Engineering, China University of Mining and Technology, Xuzhou 221116, China
- (2) School of Mechanics and Civil Engineering, China University of Mining and Technology, Xuzhou 221116, China.
