# 18th European Stereology Course

*19–25 August 2000, Göttingen, Germany*

An International Stereology course approved by the International Society for Stereology. This course will provide participants with a practical introduction to recent advances in stereology. There will be ample opportunity for discussion between participants and the experienced instructors on specific stereological problems related to the participants' own projects.

Particular emphasis will be placed on the most recent stereological methods for estimation of volumes, areas, lengths, number and connectivity of objects. The course will encompass not only traditional theory and lecture-room exercises, but also practical demonstrations.

*Teachers:* L.M. Cruz-Orive, H.J.G. Gundersen, K. Nielsen, J.R. Nyengaard, M. Ochs, B. Pakkenberg.

*Course fee:* 750 EURO (or 1500 DM) – includes tuition expenses, course materials, accomodation in double rooms and meals. Extra charge of 150 EURO (or 300 DM) for single rooms.

*Number of participants:* Limited to 25.
