

### Cardiovascular events (Patient groups > 30 years)

Patient number	Problem	Smoking	Hypertension	Dyslipidemia	Hyper-cholesterinemia	Underlying disease or prior events	Family history	Medication
1	Atrial Fibrillation	x (30py)	x			Stent RCA, RCX, IMA		Aspirin cardio 100mg ; Nebilet 5mg ; Co-Aprovel 150mg
2	STEMI		x					
3	Syncope with arterial hypertension		x			Hyper-tension		Lisopril plus 20mg; Amlodipin 10mg
4	Uncontrolled hypertension with dyspnoea and leg oedema	x			x	None		Brufen 600mg
5	Syncope	2 pipes/week	x	x	x	diastolic dysfunction; left atrial and ventricular dilatation with normal LVEF		Xenalon 50; Aspirin 100mg; Tamsulosim 0.4, Sortis 40mg; Votum 20; Dilzem 90mg
6	Arrhythmia of unknown origin		Yes, but normotone with ACE-inhibitors					Coversum 8 mg; Neurontin 800 mg
7	STEMI	x		x				
8	Several Pre-syncopes	none						
10	TdP-Tachykardia		x	x				Metozero 50 mg, Atacand; cholesterol-lowering agent

Patient number	Problem	Smoking	Hypertension	Dyslipidemia	Hyper-cholesterinemia	Underlying disease or prior events	Family history	Medication
11	Art. hypertension, palpitation and syncope		x			Hyper-tension	Father died at the age of 48 of a MI	Lisitril; Amlodipin 5mg
12	Tachycardia and dyspnoea							Viagra 1/week
13	Syncope	none				Coronary cardiopathy Stent		Aspirin cardio 100mg; Sortis 20mg
14	Carotic dissection	none				Stenosis A. carotis interna		Aspirin cardio 100 mg
15	STEMI		x	x		s/p Coronary artery bypass graft surgery; CVI		
17	Narrow Complex Tachykardie	none						Oestrogel Testosteron-derivative (since years)
19	Atrial tachycardia	none				s/p transposition of the great vessels with ventricular septal defect		Aspirin cardio 100mg; Lisitril 20mg

## Neurological events

Patient number	Problem	Smoking	Hypertension	Dyslipidemia	Hyper-cholesterinaemia	Underlying disease or prior events	Family history	Medication
30	Epileptic seizure	none				pilocytic astrocytoma grade 1		Ditropan; Magnesium; after seizure new: Keppra 500mg
31	Epileptic seizure	none				epileptic seizures		Tripeltherapy with Keppra, Depakine and Phenobarbital
35	Epileptic seizure	x (80py)	x	x		epileptic seizure		Aspirin Cardio 100 mg; Sortis 40 mg Keppra 500 mg
36	Epileptic seizure	x (6py)				s/p brain abscess		
42	Epileptic seizure	none						none
20	Ischemic Stroke		Borderline hypertension					
21	Ischemic Stroke	none						Aspirin Cardio 100 mg (primary prevention)
23	Ischemic Stroke		x	x		recurrent TIAs and Amaurosis fugax left side; s/p CVI left A. cerebri media	Positive family history for IS	Plavix 75mg; Atacand 8mg; Sortis 10mg; Xatral uno; Amlodipin 5mg
