

Supplementary data for FIGURE 5.

1. The full uncropped western blot gels of Actin.

2. The full uncropped western blot gels of p-NF- κ B

3. The full uncropped western blot gels of NLRP3

4. The full uncropped western blot gels of NF- κ B

5. The full uncropped western blot gels of caspase

Supplementary data for FIGURE 7.

6. The full uncropped western blot gels of Actin.

7. The full uncropped western blot gels of p-NF- κ B

8. The full uncropped western blot gels of NLRP3

9. The full uncropped western blot gels of NF-κB

10. The full uncropped western blot gels of caspase
