Supplementary 1. Figure S1. Correlation analysis of SLC6A4 in GSE63514 and TCGA-CESC cohorts. (A), (B) Expression levels of SLC6A4 between tumor and normal cases both in TCGA-CESC and GSE63514 cohorts. (C), (D), (E) Overall survival, disease free survival and progression survival comparison between high and low SLC6A4 groups in TCGA-CESC database. (F), (G), (H) The SLC24A3 expression in pathological cervical tissues and healthy cervical tissues from the Human Protein Atlas database.
