| Instrument: PT Survey (pt_survey)  Enabled as survey |                         |   |   |
| 1   | [ record_id ]           | Record ID   | text  |
| 2   | [ consent ]             | <p>Section Header: <i>[If you are an adult or a minor child who will complete the survey, 'you' means 'you'. If you are a parent/guardian completing the survey for your child, 'you' means 'your child']</i> We are inviting you to participate in a research study. The purpose of the study is to determine which types of airway clearance you use and why you may or may not use them routinely. We are inviting you to be in this study because you have cystic fibrosis. Approximately 200 people will take part in this study at the University of Iowa. If you agree to participate, we would like you to complete the following survey, which will take about 10 minutes. If you do not want to participate, you may exit the survey. You are free to skip any questions you would prefer not to answer. The information you provide may be used in separate future research studies. We will keep the information you provide confidential, however federal regulatory agencies and the University of Iowa Institutional Review Board (a committee that reviews and approves research studies) may inspect and copy records pertaining to this research. None of the information we collect will be able to identify you individually and we will not maintain a link between you and your data. This data can be used for future research, but again, you will not be able to be individually identified. If we write a report about this study we will do so in such a way that you cannot be identified. There are no known risks from being in this study, and you will not benefit personally. However, we hope that others may benefit in the future from what we learn as a result of this study. You will not have any costs for being in this research study. You will not be paid for being in this research study. Taking part in this research study is completely voluntary. If you decide not to be in this study, or if you stop participating at any time, you won't be penalized or lose any benefits for which you otherwise qualify. If you have any questions about the research study itself, please contact Anthony Fischer at 319-356-6992. If you experience a research-related injury, please contact: Anthony Fischer at 319-356-6992. If you have questions about the rights of research subjects, please contact the Human Subjects Office, 105 Hardin Library for the Health Sciences, 600 Newton Rd, The University of Iowa, Iowa City, IA 52242-1098, (319) 335-6564, or e-mail irb@uiowa.edu. To offer input about your experiences as a research subject or to speak to someone other than the research staff, call the Human Subjects Office at the number above. Thank you very much for your consideration. Sincerely, Anthony Fischer, MD</p> <p>Do you agree to participate in this survey? You may withdraw your participation at any time during the survey.</p> | <div>yesno</div> <div><div>1 Yes</div><div>0 No</div></div> <div>Stop actions on 0</div>  |
