

Clinical Burden of Chronic Obstructive Pulmonary Disease in Patients With Suboptimal Peak Inspiratory Flow

Supplementary Material

Figure S1. Distribution of airflow limitation categories in participants with oPIF and sPIF against the simulated medium-low resistance in trials 0128 and 0149.

GOLD = Global Initiative for Chronic Obstructive Lung Disease; GOLD 2 = FEV1 50%–79% predicted; GOLD 3 = FEV1 30%–49% predicted; GOLD 4 = FEV1 < 30% predicted; oPIF = optimal PIF; sPIF = suboptimal PIF.
