In the article titled “Breast Cancer Survival and Incidence: 10 Years Cancer Registry Data in the Northwest, Iran” [1], there was an error in “Figure 1(a).” The p value has been corrected from $p \log - \text{rank} = 0.0169$ to $p \log - \text{rank} = 0.0692$. The corrected figure is shown below.

FIGURE 1: Kaplan-Meier survival curve, results for the test of equality of breast cancer-specific survival functions for the different variables in Northwest of Iran, between 2007 and 2016 in both sexes (a) age groups.
