Supplementary Fig. 1

Scatter plots for Spearman correlation tests between IRAK gene expression and DNAss, Immune score, Stromal score, and Estimate score in three histologic-based subtypes of LGG, including Astrocytoma (A), Oligodendroglioma (B), and mixed glioma (C).

Supplementary Fig. 2

Differential IRAK family gene expression across immune infiltrate subtypes in three histologic-based subgroups of LGG, including Astrocytoma (A), Oligodendroglioma (B), and mixed glioma (C). C3, inflammatory; C4, lymphocyte depleted; C5, immunologically quiet; C6, TGF-β dominant. * P < 0.05, ** P < 0.01, **** P < 0.0001.
