

Homoplasmic sequence from Abisko, Björkliden Fjället.

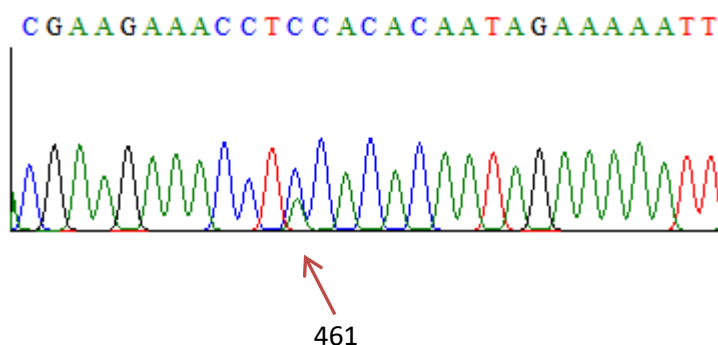

Heteroplasmic sequence from Abisko, Björkliden Fjället.

(a) *C. myrtilli*, Abisko, Björkliden Fjället, Sweden, site 471.

Homoplasmic sequence from Krušné Hory.

Heteroplasmic sequence from Krušné Hory.

(b) *C. myrtilli*, Krušné Hory Czech Republic, site 461.

Figure S2. Examples of heteroplasmic sites in *COI* sequence in *Cacopsylla myrtilli*. **(a)** A homoplasmic sequence and G/A heteroplasmy at site 471 in a specimen from Abisko, Björkliden Fjället, Sweden **(b)** Homoplasmic sequence and A/C heteroplasmy at site 461 in a specimen from Krušné Hory Czech Republic.
