In the article titled “Release of Danger Signals during Ischemic Storage of the Liver: A Potential Marker of Organ Damage?” [1], the authors identified an error in Figure 3 (a3 and a4). This error was introduced during the production of the publication, and the corrected figure is as follows:

FIGURE 3: Immunohistochemical analysis of HMGB1 expression in rat livers following cold/warm ischemia. Staining pattern changed upon ischemia and mechanical stress (a). (a3) warm ischemia (WI), (a4) mechanical stress plus warm ischemia (M+WI).
