<sup>a</sup> Includes men defined as African descent, including those defined as having some non-African ancestry, including creole, mestizo, mulatto and related groups. Percentages denoted as “greater than” indicate that the non-African percentages include African or mixed-African background individuals. NA: Data not available. Source: *The World Factbook 2009*. Washington, DC: Central Intelligence Agency, 2009.

<sup>b</sup> Data refer only to African descent population

**Supplementary Table 2: CaP Incidence Data in Men of African Descent Outside the US Derived from the Literature that were Excluded From Consideration Due to Lack of Sampling Frame, Unclear Reference Population, Lack of Age-Standardization, or Other Data Limitations.**
