DESIGNATION OF TYPE SPECIES FOR *HANA*
(HANIDAE, MEGASECOPTERA)*

BY JARMILA KUKALOVA-PECK

Department of Earth Sciences
Carleton University, Ottawa, Ont. K1S 5B6, Canada

I inadvertently established the genus *Hana* without designating a type species (Kukalova-Peck, 1975, p. 6). Thus, the genus *Hana* and the family name Hanidae are not valid in accordance with article 13 of the International Code of Zoological Nomenclature (1985, p. 37). With this note I wish to designate *H. filia* Kukalova-Peck, 1975, as the type species of the genus *Hana* to validate the generic and family names.

I thank Professor F. M. Carpenter for bringing this oversight to my attention and for allowing me to correct the problem.
