SYNOPSES OF EDITORIAL BOARD

David M. Panicek, M.D.

David M. Panicek, M.D. is a graduate of Cornell University and Cornell University Medical College. He is currently Associate Professor of Radiology at Cornell University Medical College and Director of Educational Programs in Radiology at Memorial Sloan–Kettering Cancer Center. Dr Panicek is a member of the Commission on Research and Technology Assessment of the American College of Radiology, and is a member of the Roster of Distinguished Scientific Advisors for the RSNA Research and Education Fund. He is also a member of the American Joint Committee on Cancer (AJCC) Task Force on Soft Tissue Sarcoma. Dr Panicek is a manuscript reviewer for Radiology, American Journal of Roentgenology, Journal of Thoracic Imaging, Journal of Computer Assisted Tomography, and Sarcoma, and serves on the Editorial Board of Sarcoma. His primary research activities include the imaging of primary and recurrent musculoskeletal neoplasms; MR imaging assessment of musculoskeletal sarcoma response to preoperative therapy; and efficacy studies in radiology. Dr Panicek was the lead investigator of the Radiology Diagnostic Oncology Group (RDOG) multi-institutional study of CT and MR imaging in the local staging of musculoskeletal neoplasms, funded by the National Cancer Institute.
Dr Clive Harmer qualified at the Westminster Hospital London in 1963 and undertook House jobs there followed by Senior House Office and Registrar posts in the Radiotherapy Department. In 1967 he moved to the Royal Marsden Hospital to become Senior Registrar and three years later went to work with Dr Henry Kaplan on Hodgkin’s Disease at Stanford University California as Damon Runyon Fellow. He was appointed Consultant Radiotherapist at St Luke’s Hospital Guildford in 1970 which was a joint appointment with the Royal Marsden Hospital at Sutton. Three years later he became Radiotherapist to St George’s Hospital and established the Combined Sarcoma Clinic at the Royal Marsden together with Dr Eve Wiltshaw. Over the past decade he has successively been Vice Chairman, Chairman, Chief of Radiotherapy Services, and Head of Radiotherapy, recently relinquishing this post to become Head of the Thyroid Unit. He was previously both Vice Chairman and Chairman of the Medical Staff Committee of the Royal Marsden Hospital. He has published widely on the treatment of soft tissue sarcoma. Chapters include Sarcoma of the Head and Neck, The Management of Sarcoma in the Adolescent, and Conformal Plus Three-Dimensional Radiotherapy Planning.
Robert J. Grimer is a Consultant Orthopaedic Oncologist working at the Royal Orthopaedic Hospital Oncology Service in Birmingham, UK. This Unit is one of the largest tertiary referral centres for primary bone and soft tissue sarcomas in the United Kingdom. He has extensive experience of limb salvage surgery, using endoprosthetic replacements for bone tumours and has a particular expertise in limb salvage procedures for children using extensible and debral CC’s. He serves on the MRC Bone and Soft Tissue Sarcoma Panels and is a member of the European Musculo-Skeletal Oncology Society and the International Society of Limb Salvage.
Lee J. Helman, M.D.

Dr Helman received his M.D. from the University of Maryland School of Medicine in 1980. He completed his Clinical Training in Internal Medicine at Barnes Hospital, Washington University in 1983, and in Medical Oncology at the National Cancer Institute Pediatric Oncology Branch and Medicine Branch in 1986. He became the head of the Molecular Oncology Section of the Pediatric Oncology Branch in 1993, and Chief of the Pediatric Oncology Branch in 1997. Dr Helman is a member of the American Association for Cancer Research, American Society of Clinical Oncology, American Society of Clinical Investigation, and is a member of the Board of Directors of the Connective Tissue Oncology Society.
