**Expression of miR142-5p and miR-142-3p**

Expression level of miR142-5p and miR142-3p was originally examined by microRNA array and published in Siti et al., Plos One, 2013. Results of miR-142-5p and miR142-3p were extracted from Table S4 of Siti et al.  $\Delta$ Ct value was calculated by subtracting Ct values for mammalian U6 snRNA, which was selected as an internal control, from Ct value of each sample.
